

# CCT CONTROLLER RACKMOUNTED

## © *Antenna control unit and complete M&C functionality in one unit*

Get the story and go which the CCT Controller module of the CommuniCase® Technology. Future proof line of easy-to-switch modules.

**The CCT Controller Rackmounted** - Is one of the seven modules of the CommuniCase® Technology's (CCT) unique architecture providing you with a system that you can change key characteristics easily and cost effectively.

The innovative CCT SDS (Smart Distributed System) detects with CCT Controller you have inserted and automatically updates the system and the GUI - no installation, no CDs, no hassle - the GUI will adapt and change!

### KEY FEATURES

**Easy to install** - Supports fixed installations either in a vehicle or integrated into a flight case.

**One unit** - A traditional antenna control unit and complete M&C functionality for the CCT terminal in one unit, e.g M&C of the Modulator, Block Up-Converter and Amplifier (HPA).

**Two models** - Local and remote mode or remote mode only.

**Future proof** - A modular system allowing you to change key characteristics of your existing SWE-DISH CCT terminal leveraging your investment and enabling true flexibility.

**CCT CONTROLLER RACKMOUNTED**

**GENERAL FEATURES**

Features	<p>Advanced monitoring and control through unified GUI controlling:</p> <ul style="list-style-type: none"> <li>- LNB</li> <li>- Demodulator</li> <li>- Modulator</li> <li>- Block Up-Converter</li> <li>- HPA</li> </ul> <p>Unique CCT SDS (Smart Distributed system) – easy change of terminal key characteristics            Few interconnecting cables – unit is powered through the CCT SDS bus            M&amp;C LAN physically separated from user data LAN</p>
Operating Temperature	0° C to +50° C (+32° F to +122° F)
Storage temperature	-30° C to +70° C (-22° F to +158° F)
Operational altitude	Max 3,000 m (9,850 ft)
Size (W x H x D)	48.3 x 4.4 x 37.7 cm (19.0 x 1.7 x 14.8 in)
Height in rack	1 RU
Weight	4.1 kg (8.8 lb)
